Your invitation to *Partnership, Preparedness and Professionalism*

To: IEP Team members and Head Start providers

From: Roseann Schwaderer Conference Chair

Fifteen years into planning the annual conferences on Transporting Students with Disabilities & Preschoolers for IEP Team members and Head Start providers, I am certain that:

- there's never been a greater need for partnership and collaboration between transportation and special education
- being prepared has taken on new dimensions we hardly even dreamed of in the early years and
- your interest in professionalism has never been at a higher level.

So, this year's conference theme and program content readily takes on the challenge of offering you tools you need to meet today's challenges in the areas of partnership, preparation and professionalism.

Over five days with more than 40 sessions to choose from, you will have the option of attending the main conference, two separate registration intensive workshops, and an in-depth Executive Briefing on Employee Relations Compliance Tools.

You'll find plenty of hands-on opportunities, and you will benefit from long-standing commitment this conference makes to offering workable solutions and practical answers to your daily challenges.

Please review the conference agenda here – and for full program descriptions and presenters visit www.eduprogroup.com. Please email conference@eduprogroup.com if you have questions. I'll be happy to try to answer them.

see you in orlando!
