HoL: Human Occupied Landfill

Woo! Hoo!
4 New Pages!
(Buy it Fanboy)

We know that look.

That "If I have to check for traps one more time, I'm going to sneak a spoonful of drain cleaner into the GM's Yoo-Hoo and start screaming "Guess you missed your save on that one, Mr. Ten-By-Ten Stone Corridor!!" look.

You need help.

You need HoL. Science Fiction roleplaying for gamers who've had a really bad day.

The original screwed up parody of game that people have been foolish enough to attempt playing, every page will give you unholy concepts to frighten off what few remaining non-gaming friends you may have and realize just how much gamer depravity you have left to go.

Get it before you hurt somebody.

HoL. More fun than a cow on laxatives when you forgot your visor

Recommended for mature readers only.
